

Student Drawing Guide

Having students create the design for the front of a shirt is an AWESOME idea! It lets the students be a part of the shirts, and it creates a totally unique design that only your school has! Below are some tips to successfully take the student's creation from paper to the front of the shirt!

- **Use Dark, Thick Lines**
 - Any lines that you want to show
 - Marker/pen work best
- **Full Color or No Color**
 - Avoid Crayon/Color Pencil and shading
- **Minimize Small Details**
 - Avoid using a lot of small details
- **Scan and Send**
 - Scan picture and send the file to Acc. Manager

** To have a design recreated by our graphic design team, it costs \$50 per hour and usually takes 1-2 hours.*
